

Trip Information Packet
Lomas de la Cuesta,
Zaachila, Oaxaca, Mexico
April 12-20, 2025

Welcome to Courts for Kids. Most likely, this is your first trip with our organization and we are confident that this trip will impact you in ways you cannot even imagine. We work closely with our in-country partner to make sure your basic needs are met, so we can all focus on the task at hand, creating a multi-purpose sports court with the initiative, help and support of the community.

A sports court is a great project because it requires the help of many community members, provides plenty of work for everyone, and becomes an asset that provides not only safe places for children to play, but also various other benefits. The hard work of our team will be a great bridge between us and the community and we will develop a mutual respect that will help provide inroads into a rich cross-cultural experience and first-hand insight into a developing world community.

We are looking for great cultural ambassadors, so please only sign up for this trip if you are willing to step outside of your comfort zone. You will need to work hard, you will be eating different foods, sleeping and bathing in less comfortable environments. But this is where the greatest lessons are learned.

Most importantly, we ask that you enter into this with a great sense of humility. We want you to be eager to learn and grow in this process as we are entering into a different culture with different values and norms. We want you be quick to listen and slow to speak.

We will not be giving you a detailed itinerary as things are very prone to change with this sort of construction project. But your time will be spent working on the court, taking part in various cultural activities and, most importantly, connecting with the locals.

Please look through this informational packet and feel free to contact us with any questions you may have.

If you choose to go, I can almost guarantee you will look back on this trip as a life-changing experience. You will grow so much in a week it will make you wish you could stay longer. In fact, you will probably say this was the best week of your year.

Hope you can come!

Community Information

You will be traveling to Oaxaca, named the top travel destination in the world for two years by Travel and Leisure Magazine. While there, you will be partnering with Escuela Telesecundaria, a small school with 65 students and little government support, to build a multi-use athletic court. The community around the school was formed in near proximity to the largest landfill in Oaxaca, where migrants would travel to from other parts of the State of Oaxaca to find work. As a result, the community is rich in many different indigenous cultures, such as Mixtec, Chatina, Chinantec, Mixe, and Zapotec.

Many students drop out of school by the age of 13 to work to support their family. Therefore, when students attend high school, it is considered a great family sacrifice and community success. Building the court at the high school, where some students walk up to 1 hour to attend, will encourage more students to stay in school, as it will provide the only area for playing sports. We often see a direct correlation between the addition of a court and the enrollment in the school.

The Telesecundaria school was created in 2018. It was a project proposed by neighbors in an assembly. The community donated the 10x20 meters plot and a Tequio was carried out, that is, collaborative work between residents, to level the land, build a first provisional classroom of sheet metal and a corridor for the student's rest time. Now the school has grown to include 3 classrooms, each of these completed through the hard work of the community. Now their goal is to build an athletic court, which you will be working with them to make a reality.

Your group will be met at the airport by a Courts for Kids staff member who has been working closely with the community to plan all aspects of your visit. You will be staying in a large communal house sleeping on mattresses on the floor. You will work side-by-side with the locals and although it will be challenging there are jobs for everyone of every physical capacity. During the whole trip you will be fully immersed in the local culture eating authentic food, learning local traditions, customs, and way of life. It is important to note that this court will be built with the community not for the community. The community members are very motivated to make their court a reality and from the beginning, they have been the driving factor planning this project to see it come to fruition.

*More specific lodging, packing, and trip logistics will be provided as the departure date gets closer.

**Please note, the destination community is subject to change at the discretion of Courts for Kids in order to best meet the needs and safety of the volunteer group as well as the needs of the host community.
